Education

Dr. A.P.J. Abdul Kalam Technical University **Dec. 2023 – May 2027**
Computer Science and Engineering, CGPA 8.2 *Lucknow, Uttar Pradesh*

Programming Achievements

- **HackerRank: yc9956434 |** 3-Star Silver Budge , Problem Solved in Java, Python & C;.
- **Leetcode: yash2404 |** Maximum Rating **1355**, Knight. Global Ranks **789,122** in Leetcode Contest

Projects

Freelance Marketplace Platform | *PHP, MySQL, HTML5, CSS3, JavaScript* | **Jan 2025**

- Designed and developed a **Full-Stack web application** to connect independent freelancers with clients, featuring a secure **User Authentication** system.
- Engineered a **Relational Database** using **MySQL** to manage user profiles, project postings, and bidding history with optimized SQL queries.
- Built a **Dual-Dashboard interface** using **Session Management**, providing separate functionalities for 'Clients' to post jobs and 'Freelancers' to submit proposals.
- Implemented **Form Validation** and **Data Sanitization** on both client and server sides to prevent security vulnerabilities like SQL Injection and XSS.
- Created a **Responsive UI** with CSS Flexbox/Grid, ensuring a seamless user experience across mobile and desktop browsers.

Web Productivity & Gaming Suite | *HTML5, CSS3, JavaScript (ES6+)* | **Oct 2025**

- **Interactive Tic-Tac-Toe:** Developed a browser-based game using **Vanilla JavaScript** and **DOM Manipulation**, implementing logic for win-pattern detection and draw scenarios.
- **Real-time Word Counter:** Engineered a utility tool that provides instant character and word counts using **Regex (Regular Expressions)** and **Event Listeners** for live data processing.
- **Responsive Design:** Utilized **CSS Flexbox** to ensure both applications are fully functional and visually consistent across mobile and desktop devices.
- **State Management:** Implemented custom JavaScript functions to handle real-time UI updates and reset features without page reloads, improving User Experience (UX).

Professional Portfolio Website | *HTML5, CSS3, JavaScript, Bootstrap* | ***Jan 2026***

- Designed and architected a multi-page portfolio using **Bootstrap 5**, ensuring 100% compatibility across mobile, tablet, and desktop devices.
- Optimized image assets and utilized **Lazy Loading** techniques, reducing initial page load time by **40%**.
- Built a custom **Dark Mode** toggle feature using JavaScript and local storage for persistent user preferences.
- Managed version control using **Git**, maintaining a clean repository with documented commits.

Relevant Coursework

- Data Structures and Algorithms
- Operating Systems
- Web Development
- Compiler Design
- Database Management Systems
- Computer Networks

Technical Skills

Languages: C, Python, Java, HTML/CSS, JavaScript
Frameworks/Technologies: ExpressJS, Node.js, ReactJS, MongoDB, MySQL, MongoDB, AWS(basics)
Developer Tools: Git/GitHub, VS Code
